+49 151 253 20930 | Möllerstraße 18 Dortmund, Germany

Professional Summary

AI Engineer with **4+ years of experience** designing and shipping **production ML and Generative AI systems serving 5M+ users**. Deep expertise in **LLM fine-tuning, RAG, and agentic pipelines** (LangChain, LangGraph) - delivered hybrid ML-LLM solutions reaching **93% F1**. Backed by strong classical ML foundations and **end-to-end MLOps on AWS** (Docker, FastAPI, MLflow). Proven track record turning models into reliable, deployed products with measurable impact. Open to relocation across Germany.

Professional Experience

Izmir Inovasyon ve Teknoloji A.Ş.

Izmir, Turkey

Data Scientist

Jun 2022 – Dec 2025

- **Hybrid ML & LLM Agent Pipeline (LightGBM + RAG + BERT)**: **87%** ML accuracy, **93% F1** overall, **10×** individual processing capacity.
- Fine-tuned **Whisper Large v3 Turbo** via **LoRA**; loss 4.92 → 0.92, **3.65%** absolute WER reduction on **Turkish** speech.
- Auto-generated descriptions for **500+** undocumented **Oracle** tables; built **NL → SQL pipeline**, cutting manual audit time by **40%**.
- **Citizen Complaint Platform**: **3,000+** daily requests, **52** categories / **280** sub-categories / **1,000+** root causes; street-level **Mapbox** visualization delivered to Mayor via mobile app.
- **LSTM + LightGBM** ferry density forecasting — **90%+** accuracy; real-time forecasts on in-station screens, optimized **IZDENIZ** schedules and fuel consumption.
- Managed **Big Data infrastructure (Hadoop + PySpark)** for city-wide transport data: bus, ferry, metro, light rail — **5M+** residents; interactive **PowerBI** dashboards.
- **End-to-end overtime & financial flow analytics pipeline**; anomaly detection transforming unmonitored expenditure data into auditable management reporting.

MIUUL

Remote

Data Science Mentor

Feb 2022 – Dec 2024

- Developed **hybrid recommendation engine (item-based + user-based collaborative filtering)** for **Armut.com**.
- **RFM segmentation & CLTV analysis**; campaign ROI **+18%**, churn retention precision **+20%**.
- Benchmarked **RF / XGBoost / LightGBM** — **88% test accuracy** for airline passenger satisfaction.

KODLAND

Remote

Python Instructor

Jun 2021 – Apr 2022

- Python & Pygame curriculum: programming fundamentals and game development via project-based learning.

Selected Projects

LeaderShip-Coach-Agent | LangChain, Streamlit, Weaviate, ElevenLabs, Tavily

github.com/gorkenvm

- Production AI coaching agent built for **Enocta**; voice-enabled LLM sessions (ElevenLabs) with **vector memory** (Weaviate) and real-time web search (Tavily).

JobTracker | React, FastAPI, PostgreSQL, LangChain

github.com/gorkenvm

- Full-stack AI job tracker; **multi-provider LLM** CV and cover letter generation with PDF/DOCX export.

YU_RAG | RAG, Agent, Vector Search

github.com/gorkenvm

- **RAG-based generative AI system** for Yasar University GDG on Campus; structured document retrieval pipeline with OpenAI tool integration.

Education

Istanbul Medeniyet University

Istanbul, Turkey

M.Sc. in Engineering Management

2017 – 2019

Isik University

Istanbul, Turkey

B.Sc. in Biomedical Engineering

2011 – 2016

University of Pécs

Pécs, Hungary

Erasmus Exchange – Electrical and Electronic Engineering

2015 – 2016

Technical Skills

Generative AI & LLMs: LangChain, LangGraph, Knowledge Graph, crewAI, RAG, Agentic Workflows, LLM Fine-tuning, Vector Databases, Hugging Face, Prompt Engineering
Machine Learning & Deep Learning: NLP, Computer Vision, Time Series, A/B Testing, PyTorch, TensorFlow, Scikit-learn, XGBoost, LightGBM, CatBoost, BERT
MLOps & Deployment: Docker, MLflow, CI/CD (Jenkins, GitHub Actions), FastAPI, Flask, Git, Terraform
Cloud & Data Engineering: AWS (S3, Lambda, Glue, Athena, SageMaker, Bedrock), GCP, Apache Spark , Hadoop, Databricks, Kafka
Languages & Databases: Python (Advanced), SQL (PostgreSQL, BigQuery, Oracle, MS SQL), NoSQL (MongoDB), Bash
Business Intelligence: Power BI, Tableau, Grafana, Qlik

Certifications & Specialized Training

AI Agents in LangGraph, Knowledge Graphs for RAG, Post-training of LLMs <i>DeepLearning.AI</i>	2025
Foundations of Agents, CrewAI <i>Hugging Face</i>	2024
Deep Learning: ANN, CNN, RNN, LSTM <i>Turkcell</i>	2024
MLOps Bootcamp, Agile Bootcamp <i>Miuul</i>	2023
Data Engineering Bootcamp (200+ hrs) <i>Miuul</i>	2022
Data Science & ML Bootcamp (200+ hrs) <i>Miuul</i>	2021

Languages

Turkish: Native | **English:** Advance (C1) | **German:** Intermediate (A2, actively improving)
